Programming Club

Michio Honda
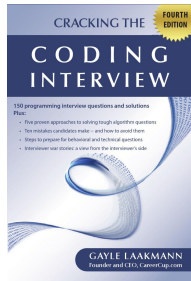

Lecturer in Networked Systems
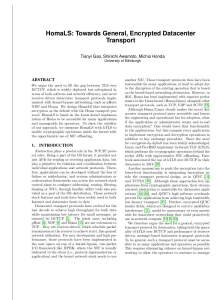

https://micchie.net

Programming Club

- **Personal or group programming project/study**
  - Coding (interview) exercise (e.g., for intern)
  - Competitive programming (e.g., ICPC)
  - Program toys (e.g., drones)
- **Weekly meetup** (likely on Wednesday afternoon)

First meetup: 28 Sep. (Wed) 15:00 Appleton Tower A.T.5.04 (no registration needed)

Programming Club

■ **Systems research practice (new in 2022)**
- OS, networking, storage, distributed systems etc.
- Learn basics not taught in the courses
  - UNIX programming, system administration, scripting etc
- Publish papers (very good for job/PhD applications)
  - Survey, problem finding, design, implement, measure

First meetup: 28 Sep. (Wed) 15:00 Appleton Tower A.T.5.04 (no registration needed)
